with accents, I envisioned a collection which has life and energy, created through the use of simple designs with movement and a contemporary interpretation of colour - this gives the collection a modern vitality which is unique - I named it "accents" because it signifies just that; the prints work as accents with the upholsteries, adding a contemporary edge to any room - accents puts an emphasis on giving the designer more options in a short space of time to create a scheme suitable for modern contract interiors

anna o'doherty, design director
